Blue Cross and Blue Shield Association

Health OptionsConnect, Inc.  
*formerly*

PRINCIPAL HEALTH CARE OF FLORIDA, INC.

## Important *New* Information!

**B**lue Cross and Blue Shield of Florida is committed to ensuring that all Principal Health Care of Florida members have the opportunity to experience the peace of mind that comes with having Blue Cross and Blue Shield of Florida.

We have heard from our agents and sales representatives that issues such as rate increases and product matches are making it a challenge for the Principal Health Care of Florida groups to choose Blue Cross and Blue Shield of Florida. We have made some adjustments in these areas, and wanted you to know how we are addressing the issues.

**Effective July 1, 1999, the following guidelines  
apply for renewing groups with 1-50 eligible lives:**

**Rate Modification** – To ease the group's transition from Principal Health Care of Florida to Blue Cross and Blue Shield of Florida, a 15 percent rate increase cap will apply only for those products to which the group is matched. This rate increase cap is for all groups converting through March 2000. It will provide groups with a more consistent renewal rate so they can better manage their expenses and eliminate the need for you to present large rate increases.

**Improved Product Matching** – If the group currently has an HMO product with Principal Health Care of Florida, they will be matched to a Health Options HMO product that is most like their current plan. If the group has a point-of-service product, they will be offered our Blue Cross Care Manager product. Groups that have a dual option HMO/POS product will be offered our HMO/Blue Cross Care Manager product. This policy is applicable statewide.

---

**Relationship of Rates to Products** – Products within the HMO and Care Manager family will retain the correct rate relationships. If a group is matched to a specific HMO product, the 15 percent rate increase cap will apply to that plan. Any plan within the HMO family of products will retain the correct rate relationship (for example, if the group wants the HMO option with a richer benefit package than the one matched to them, the rate would be in proportion to the benefits). If a group requests benefit plan alternatives outside of this family of products, those alternatives will not reflect the rate increase cap. There may be situations where the group is matched to a rate-capped Care Manager product, for example, but an alternative HMO plan may have a higher premium than the original matched product.

**Alternative Product Options** – Blue Cross and Blue Shield of Florida will continue to offer alternative products to groups that request changes in their benefits. If the group requests benefit plan alternatives outside of the family of products to which they are matched, these benefit alternatives will not be capped.

**Early Renewals** -- We will convert any current Principal Health Care of Florida group that wishes to renew earlier than their scheduled date. Simply notify your BCBSF contact that the group would like an early renewal. The rate increase cap and product matching changes are effective for all groups with renewal dates of July 1, 1999 and beyond.

**April-June Renewals** -- For renewals already quoted at rates that exceed 15 percent from April through June 1999, we are currently updating these groups' rates and plan to begin communicating with groups and their agents in the upcoming weeks about their new rates. In some cases, groups will receive a premium reduction.

Based on feedback we have received from our agents and sales representatives, we believe that these enhancements and changes will assist in converting your clients to Blue Cross and Blue Shield of Florida.

If you have questions about these guidelines,  
please contact your BCBSF local sales office or  
your ONA/RBG sales management office.

Thank you for your continued support of Blue Cross and Blue Shield of Florida as we work to provide your clients with quality, affordable health care plans.

Orlando, FL 32803-3759

June 17, 1999

Dear Valued Member,

I am writing to share some important news with you regarding your health plan, Principal Health Care of Florida Inc. (now known as Health Options Connect Inc. but referred to in this letter as Principal Health Care of Florida).

On July 1, 1999, an arrangement that had been in effect between Principal Health Care of Florida and the Florida Hospital Healthcare System physicians will expire. For a small number of our members whose physicians are only in the Florida Hospital Healthcare System network, this will mean selecting a new physician from the Principal Health Care of Florida network. Because over 90 percent of Florida Hospital Healthcare System physicians are also in the Principal Health Care of Florida network, the vast majority of members will not have to make any change to their primary care physician, specialists or treatment programs.

Here are the details and how this change may affect you:

### **Primary Care Physicians**

If your current primary care physician belongs to both the Florida Hospital Healthcare System and Principal Health Care of Florida networks, you will not be affected and can continue receiving services from the same physician. A listing of our current primary care physicians is enclosed for your convenience.

If your current primary care physician is not on the enclosed list, we will select a new primary care physician for you. You will soon receive additional information from us about your new primary care physician.

As always, we recommend that you call us if you would like to change your primary care physician, or to determine whether your physician is participating. We are continuing to add new primary care physicians to our network, so this list will be updated regularly.

### **Hospitals**

You will still be able to use Florida Hospital and any of its facilities for your medical needs.

You also have access to Principal Health Care of Florida's other hospitals and facilities.

## **Specialist Care**

If you are currently receiving care from a specialist who is only in the Florida Hospital Healthcare System network, we will contact you to discuss treatment alternatives. We will work closely with your physician to assure a smooth transition of care for you within the Principal Health Care of Florida network.

## **Laboratory Services**

Laboratory services for Principal Health Care of Florida members must be processed through LabCorp of America facilities. Should you need laboratory services, please be sure you are referred to one of the numerous LabCorp locations in Central Florida. These locations are listed in the enclosure or you can ask your physician for more information on LabCorp locations.

## **Identification Cards**

All Principal Health Care of Florida members currently enrolled in the Florida Hospital Healthcare System will receive new member identification cards in a separate mailing. These new cards will be effective July 1, 1999. If you have any questions about your card, or if you do not receive one, please call us at 1-800-654-7803.

In addition to the primary care physician listing, we've also included answers to the most commonly asked questions regarding this change. Thank you for your patience and understanding as we make these changes. Health Options Connect, as part of Blue Cross and Blue Shield of Florida, is committed to helping our members improve their health by arranging for quality care through network providers in an efficient, convenient manner. If you have questions about this change or need assistance, please call our Customer Service Department at 1-800-654-7803.

Sincerely,

A handwritten signature in black ink, appearing to read "John J. Dallman", with a long horizontal flourish extending to the right.

John J. Dallman, MD  
Vice President, Care and Network Management  
Blue Cross and Blue Shield of Florida

## Answers to Your Questions

**Q. Why is Principal Health Care of Florida and Florida Hospital Healthcare System ending their shared risk arrangement?**

**A.** Before the purchase of Principal Health Care of Florida by Blue Cross and Blue Shield of Florida, there was a shared risk arrangement between Principal Health Care of Florida and the Florida Hospital Healthcare System. Beginning July 1, 1999, this risk arrangement is no longer effective. The decision to end the agreement is not related to Blue Cross and Blue Shield of Florida's purchase of Principal Health Care of Florida earlier this year. The shared risk arrangement was not cost effective or productive for our groups and members.

Health Options *Connect* (the name for Principal Health Care of Florida) is committed to providing its members with the most appropriate, quality health plans through our provider networks. Occasionally a hospital, physician group or individual physician may determine that their business goals conflict with our goals to provide members with access to quality and affordable health care. Changes in our physician networks are based upon anticipated member and business needs in the local market. These decisions are always made with the best interest of our members in mind. Our decision to conclude a relationship with a particular physician or hospital system is not necessarily a reflection of the quality of care provided to our members.

**Q. How will I know if this change is going to impact me?**

**A.** The majority of members will not have to make any changes to their primary care physician, specialist or treatment program because many of the Florida Hospital Healthcare System physicians also have contracts with Principal Health Care of Florida. The only members who will not be covered for physician services rendered after June 30, 1999, are those who receive care from a physician who is not also under contract with Principal Health Care of Florida. Members directly impacted by this change (less than five percent of the current membership) are being notified by letter and will be assigned a new primary care physician. A listing of all the primary care physicians that members can access for services will be included for easy reference. Members with concerns about their insurance coverage or choice of primary care physician should call 1-800-654-7803.

If there is a need for you to change physicians, we will try to make the transition as easy as possible for you. Chances are, however, you will not be impacted at all. Most Florida Hospital Healthcare System physicians are also members of the Principal Health Care of Florida network; if your physician belongs to both networks, you will not have to make a change. You can look for your primary care physician's name in the listing of network providers which was included in this mailing.

**Q. How soon will I need to find a new doctor?**

**A.** This change will need to be made by July 1, 1999. Again, if you are one of the few members who has to choose a new primary care physician, we will notify you and select a new physician for you. We are continuing to add primary care physicians to our network, and it is possible that your current physician will contract directly with Principal Health Care of Florida in the near future. If you would like to change the physician choice, or determine whether your physician is participating, please call our Customer Service Department at 1-800-654-7803.

**Q. I'm currently being seen by a specialist and am on a treatment program. Will I still have to change doctors by July 1?**

**A.** If your specialist is only in the Florida Hospital Healthcare System network, we will contact you to discuss treatment alternatives. Please be assured that we will work closely with your physician to assure a smooth transition of care for you. Our first priority is the quality of your care.

- Q. Can I still use Florida Hospital if I need to be hospitalized?**
- A.** Yes, you will still be able to use Florida Hospital and any of its facilities. You will also have access to Principal Health Care of Florida's other hospitals and facilities. The change in the risk arrangement has no impact on your ability to use the services of Florida Hospital. As always, for all health emergencies, go to the nearest hospital for treatment or call 911 for assistance.
- Q. I've always had my lab work sent to a particular laboratory. Why do I have to change now to LabCorp?**
- A.** All of our members' lab work will now be processed through LabCorp of America, which we believe will deliver both the quality and the cost-effectiveness that is in our members' best interests. LabCorp has many convenient locations in Central Florida. Your physician has a list of these locations, and can assist you in identifying the location best for you. A listing of LabCorp's facilities is also included in this mailing.
- Q. Will I receive a new member ID card?**
- A.** Yes, all Principal Health Care of Florida members currently enrolled in the Florida Hospital Healthcare System will receive new member identification cards in a separate mailing. These new cards will be effective July 1, and you should receive yours no later than June 30, 1999. If you do not receive your new card by then, please call us at 1-800-654-7803.
- Q. If I have to change physicians, what will happen to my medical records?**
- A.** We will coordinate with your current physician's office to ensure a smooth transition, including the transfer of any necessary medical records.
- Q. I'm on a prescription medication. What if my prescription runs out before I can get in to see my new physician?**
- A.** Our nurse care managers will review any issues like this with you and your current physician, to make sure that there is continuity in your care, that you have the medications you need during this transition, and any other issues that may concern you or your physician about your care are addressed properly.
- Q. What happens if I have the Choice or Plus health plans from Principal Health Care of Florida (a type of point-of-service plan)? Will my co-payment and coverages for different procedures stay the same when I switch to my new physician?**
- A.** Yes, your coverage remains the same while you are covered by Principal Health Care of Florida. Depending on the type of health plan you have, co-insurance and deductibles could change if you are referred to a non-participating provider. If your group coverage is the Choice or Plus health plan with Principal Health Care of Florida, you may continue to see physicians who only have contracts with Florida Hospital Healthcare System. However, your financial responsibility would change. If you self-refer to a physician within the Principal Health Care of Florida network, a co-insurance would apply. If you self-refer outside of the Principal Health Care of Florida network to a non-participating physician (for example, a physician with a Florida Hospital Healthcare System-only contract), you would be responsible for co-insurance plus a deductible.
- Q. Did Blue Cross and Blue Shield of Florida's purchase of Principal Health Care of Florida impact this change in the agreement with Florida Hospital Healthcare System?**
- A.** Principal Health Care of Florida was purchased by Blue Cross and Blue Shield of Florida on December 31, 1998. Principal Health Care of Florida is now known as Health Options Connect, and Blue Cross and Blue Shield of Florida is in the process of converting employer groups and members to Blue Cross and Blue Shield of Florida's wide variety of products. The majority of groups will be enrolled with Blue Cross and Blue Shield of Florida by the end of 1999. Before the purchase of Principal Health Care of Florida by Blue Cross and Blue Shield of Florida, Principal Health Care of Florida entered into a shared risk arrangement with Florida Hospital Healthcare System in Orlando. The decision to end the agreement is not related to Blue Cross and Blue Shield of Florida's purchase of Principal Health Care of Florida earlier this year. The shared risk arrangement was not cost effective or productive for our groups and members. Blue Cross and Blue Shield of Florida does not have a shared risk arrangement with Florida Hospital Healthcare System. As Principal Health Care of Florida groups begin to convert to Blue Cross and Blue Shield of Florida products on their anniversary date, members will be able to access Blue Cross and Blue Shield of Florida's broad network of physicians and health care professionals. Groups that wish to switch to Blue Cross and Blue Shield of Florida before their renewal date may do so - simply notify your agent or sales representative that you'd like to join Blue Cross and Blue Shield of Florida earlier than planned.
